She is a FSF Starburst on an ALM Chiller cow, which is an outcross from most of the pedigrees seen today; therefore, the breeding options on this heifer are endless. She is docile and will make a show heifer before turning out in your herd.

This lot represents an extraordinary opportunity for Shorthorn breeders. These heifer embryos are designed to be breed leading genetics with multiple marketing endpoints. The Hahn Elizabeth cow family is one of the great maternal lines in the breed and C43F is an absolutely impressive beast. Elizabeth C43F is a maternal sister to the great Hahn Supremacy C42E champion sire for Hahn and Rexlaine and is as stout and wide based as can be made without sacrificing maternal ability. She has been a proven winner with multiple championships at the state and national levels over two show seasons. Creating these embryos with Hot Commodity as the service sire will generate good looking, functional daughters with the data to support future herd bull production. We are looking forward to our own versions to be born in the spring of 2022 and you should join us. *Guarantee 1 pregnancy if implemented by a certified technician.*
